5	Port Angeles	106	68	38
6	Anacortes	114	51	63

Saturday started calm, but the breeze came in about 1130, along with the rain -- heavy rain -- for a couple hours. Temp. was in the upper 40's. The breeze stayed all afternoon, but sailing was stopped after one rotation because the sailors (and coaches and committee) were quite cold. Sunday at 0930 the boats headed out to the course in very light air. After waiting for an hour, they started the first race, which turned into a floater. The breeze freshened, shifted a couple times, then stayed steady at 8-10kts for the rest of the day. All in all, a wonderful day for sailors and spectators.
